

SECOS Winter Garden Bird Survey : 1991/92

Due to the late start this Survey only includes the months of December to March inclusive except for two of the ~~ten~~ records returned which were for the full six months.

It is not possible with this small survey to make a comparison with previous years and to indicate any trends, but the results are as follows

A total of ~~38~~ species were recorded and these are listed indicating the number of gardens in which each species was recorded and the maximum number occurring.

List of Participants 1991/92

8502	Brian Perkins	Crewe
8505	David Meakin	Crewe
8511	Alan Soper	Congleton
8515	Polly Proudlock	Alsager
8516	Vera Riggall	Congleton
8518	Ann Pym	Congleton
